

The Intermediate Pet Gundog Weekend Workshop

Taking place at the award winning MacDonald Crutherland House in the beautiful Clyde Valley, this fabulous weekend brings together all the elements of working your gundog including the basics, directional control, whistle work and hunting.

Different terrains will be introduced adding complexity and excitement to challenge your dog's steadiness, before bringing in the excitement of the starter pistol, dummy launcher and working with dressed dummies.

If you want to have a great weekend away with your dog, gain some fantastic insights into dog behaviour and learn some new, positive, motivational and effective training techniques then book now; workshops are kept small so spaces are limited.

Full payment of £195* will be required upon booking to secure your Pet Gundog weekend workshop.
